<p>Windows[®]. Life without Walls[™]. Acer recommends Windows 7.</p> <ol style="list-style-type: none"> Specifications vary depending on model. 64-bit software is required to enjoy the advantages of 64-bit processing. Shared system memory may be allocated to support graphics, depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by any memory used by the graphics solution and resources required by the operating environment. This system is bundled with DDR3 1333 MHz memory; however, memory speed may vary depending on CPU/chipset support. A 64-bit operating system is required to enjoy the ultimate performance of 4 GB or higher memory. Resolution/refresh rate depends on display capability and color/depth settings. Dolby[®] is a registered trademark of Dolby[®] Laboratories. Dolby[®] Home Theater[®] is a trademark of Dolby[®] Laboratories. The SSD is integrated with the mainboard and dedicated to Acer Green Instant On. It is not visible in file explorers. 1 GB is 1 billion bytes. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Two VQE-enabled Acer notebooks with dual-core processors are required to enjoy the exclusive benefits and added performance of VQE. Actual throughput may vary depending on network conditions and environmental factors such as network traffic or overhead, building construction, and access point settings. Acer Nplify[™], a high-throughput wireless solution, delivers superior performance and reliable connections while enabling emerging voice, video and data applications. Wi-Fi CERTIFIED[™], it is compliant with 802.11b/g/n standards. Weight may vary depending on product configuration, vendor components, manufacturing variability, and selected options. The battery will hold up to 80% of its original capacity after as many as 1,000 recharges. A full recharge comprises a complete charge-and-discharge cycle, and does not always occur each time the notebook is plugged in to a power source, as several partial charges can add up to a full recharge. The listed battery life is based on MobileMark 2007[®] productivity mode testing with wireless on. Details of MobileMark2007[®] testing are available at www.bapco.com. Battery life rating is for comparison purposes only. Actual battery life varies by model, configuration, applications, power management settings, operating conditions, and utilized features. A battery's maximum capacity decreases with time and use. After a certain amount of time in Sleep mode, the computer will automatically enter Deep Sleep to preserve battery life. When the computer is in Deep Sleep, the power indicator LED will be turned off. In this state, battery life lasts up to 80 days.
